Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 21 and 22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Original claims 1-20 are drawn to an apparatus. Claims 21 and 22 are drawn to a process. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case both situations apply.

The apparatus includes either one or a plurality of complex multiplication units receiving FFT-processed data and calculating a spatial derivative in the frequency domain from the FFT-processed data. The method requires determining spatial derivatives but does not require the specific apparatus or apparatuses of a complex multiplication unit or units that receive FFT processed data, nor calculating a spatial derivative in the frequency domain from the FFT-processed data.

The method requires the use of streaming data values, but the apparatus can be used for data values other than streaming data values.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2857

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21 and 22 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

The Applicant's claimed invention is specifically disclosed as a hardware implementation. Applicants claimed system or hardware configuration is drawn to carrying out the pseudo spectral time domain method on this implementation. Applicant's amendment to the claims provides specific limitations to overcome the art of record. Applicant's claims 1-20 are deemed allowable over the prior art as the prior art fails to teach or fairly suggest the specific claimed hardware implementation of the pseudo-spectral time domain method that further includes a memory subsystem that provides input values to the FFT unit and receives output from the computation engine wherein input values for the FFT unit are stored in increasing-x, increasing-y and increasing z-patterns in the memory subsystem that allow a burst read of the memory subsystem.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Claims 21 and 22 are presently withdrawn but are still pending. They must be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
